

# Daniel Felipe Lopez Rubio

Full Stack Developer | React.js, Next.js, Node.js, TypeScript

✉ [dafeloru@gmail.com](mailto:dafeloru@gmail.com)    📞 [\(+57\) 3127124972](tel:+573127124972)    📍 Medellin, Colombia    🌐 [daniellopez.dev](https://daniellopez.dev)    🔗 [LinkedIn](#)    💻 [GitHub](#)

## Summary

Full Stack Developer with 3 years in production systems across 3 countries (Colombia, Mexico, Brazil). Specialized in React, Next.js, Node.js, TypeScript — track record of +20% performance optimization, zero post-intervention errors, and owning integrations with government entities (Ministry of Transport, Mobility Secretariat) in remote teams.

## Experience

**Carryt** Medellin, Colombia  
Full Stack Developer May 2024 - Present | Full-time, Remote

- Proposed and led refactor of driver payment settlement module: +20% processing speed, weekly errors eliminated, active across 3 countries
- Owned RNDC module — mandatory Ministry of Transportation integration; fines up to 20 SMMLV for non-compliance
- Adapted financial business logic for Colombia and Mexico with distinct calculation rules per market
- Implemented production error monitoring with Sentry (frontend + backend) and Jest test coverage
- Administrative panel for Bogota Mobility Secretariat (in development)

Stack: Next.js, TypeScript, Node.js, PostgreSQL, Docker, REST APIs

**Disruptive Information Technologies** Medellin, Colombia  
Frontend Developer October 2023 - April 2024 | Full-time, Remote

- Led full frontend rewrite: -40% load times, +60% UX improvement, enabling commercial launch on schedule

Stack: Next.js, TypeScript, React, Material UI

**SENA** Medellin, Colombia  
Full Stack Developer April 2023 - October 2023 | Volunteer

- Designed backend in ASP.NET Core 6.0 (C#) + SQL Server (28 tables); 90+ REST endpoints with RBAC
- Built frontend in React.js + Tailwind CSS; led a team of 10 through the full development cycle

Stack: C#, ASP.NET Core 6.0, React.js, SQL Server, Tailwind CSS, Flutter, REST APIs

## Projects

**AgentHub**  
Demo | Tech: Next.js, TypeScript, Supabase, Prisma, PostgreSQL, OpenRouter, Tailwind CSS

- Multi-tenant AI platform for 24/7 lead qualification; 8-table PostgreSQL schema with RLS
- 5-stage pipeline with auto-classification every 4 messages; streaming LLM responses via OpenRouter

**Franchise API**  
Demo | Tech: Java, Spring WebFlux, MongoDB, Docker, Terraform, AWS ECS Fargate, Swagger/OpenAPI

- Scalable reactive REST API built for >1,000 req/s via non-blocking I/O; 3 nested entities with atomic reads
- GitHub Actions CI/CD pipeline: automated build → test → deploy to AWS ECS Fargate on every push to main

## Skills

**Languages & Frameworks:**  
React, Next.js, TypeScript, JavaScript (ES6+), Node.js, Express, Java, C# / ASP.NET Core, Tailwind CSS, Spring WebFlux, Material UI

**Data & Infrastructure:**  
PostgreSQL, MongoDB, SQL Server, Supabase, Prisma ORM, Docker, AWS, Terraform, Git, Vercel, CI/CD, Agile/Scrum

## Languages

**Spanish**  
Native

**English**  
Intermediate (B1) - Actively improving

## Education

**SENA** Technology  
Software Analysis and Development Technologist Medellin, Colombia • 2023 - 2024

**SENA** Technique  
Software Development Technician Medellin, Colombia • 2023 - 2024
